## Services in the Medical Clinic

In 2005, Cle Elum Family Medicine Center joined Kittitas Valley Community Hospital (KVCH) to further its mission to serve the Upper County. In 2008, an expanded and renovated facility opened, now bearing the name Cle Elum Medical Center. This expansion has enabled us to provide a larger array of services from a broader network of physician specialists under one roof.

## Services in the Urgent Care Center

Cle Elum Urgent Care Center was incorporated into Cle Elum Medical Center in February, 2008. The Urgent Care Center provides evaluation and treatment for patients with non-critical injuries or illnesses. Patients arriving with a potentially life-threatening situation are stabilized and transferred to the KVCH Emergency Department or another appropriate facility.

## Cle Elum Medical Center

Caring for Kittitas County residents since 1980, Cle Elum Medical Center offers a full spectrum of family medical services for patients of all ages. Board-certified and board-eligible physicians and physician assistants provide exceptional community healthcare—comprehensive and personalized.

## MISSION & VISION

*Our mission; "To serve the people of our community with excellent and compassionate healthcare."*

*Our vision; "Exceptional community healthcare."*

## Insurance

Cle Elum Medical Center accepts Medicare, Medicaid and most forms of private insurance.
